A first stereo pressing of The Beatles Please Please Me LP

Vinyl LP record album, The Beatles Please Please Me 1st Stereo pressing, PCS 3042, gold and black Parlophone stereo label, with (Dick James mus co) publishing credit, YEX 94-1/95-1, in original laminated case, replacement inner sleeve.

The surface of the vinyl on both sides shows light scratching and use over most of the surface, the label is rubbed on the edges. The scratches are not that deep so may not affect the quality of the playing, but this cannot be guaranteed. The inner sleeve does not appear to be the original, the out sleeve wears along edges and corners, with a large tear along bottom edges, and lifting of the lamination and paper on the back corners, please see the added photos on our website.
