Steiff Teddy bear, 'Grumbly' early 20th century golden long mohair fur.

Steiff Teddy bear, 'Grumbly' early 20th century, with original Steiff button to ear, golden long mohair fur, straw filled, jointed limbs, black button ears, hump to back, 52cm full length.

The pads on the feet and the hands look to have been replaced at some point. The fur around the snout area is a bit worn but the fur on the body and head is good for the ages. The stuffing is original, does not have a growler. The bear has been in the same family from new, looks to date from about 1915-1925. Please see the added photos uploaded on our website.
